

Unique Broadband Systems, Navy, Army, Air Force, Marines & Scientific Instrumentation division, is pleased to announce the successful completion of the first transaction between UBS and Alan Aircraft Services Inc. The distributor agreement executed has allowed UBS products and services to be accessed by the Alan Aircraft network of end users in the United States and NATO approved countries.

“Alan Aircraft Services and its team of knowledgeable, self-starter, business development resources knocked it out of the park with the successful sale of multiple solutions in the first two weeks of partnering” says President & CEO, David Dane.

This newly formed partnership between Alan Aircraft Services Inc. with Unique Broadband Systems LTD. clearly complements each other. Alan Aircraft has begun to stock certain parts produced by UBS, and this has had an immediate positive impact on sales. Alan Aircraft Services looks forward to working with UBS, a leader in the Digital Communications Systems industry says President & CEO, Alan Lance.

About Unique Broadband Systems Ltd. (UBS) is a Canadian multinational, privately owned and operated company that specializes in design, development, manufacturing and life cycle maintenance of complete digital communication systems for voice, video and data in the broadcast, medical and defense industries.

With its head office and 60,000 square feet of facilities located in Toronto, Canada and 30,000 sq. ft in Pittsburgh, USA, Unique Broadband Systems Ltd. is well-known worldwide for its strong focus on research and development. Most importantly however, UBS is recognized globally for its uncompromising approach to producing state-of-the-art power amplifiers, transmitters receivers modulators/excitors, repeaters and an array of passive components and waveguides for satellite, military, digital television, digital satellite radio medical and scientific applications.

Key digital television transmitter solutions are broadcast from UBS Universal Modulator DVU5000 with a robust broadcasting platform to software select DVB-T/H/SH ATSC/CMMB/DTMB/DVB-S/S2, ISDB-T/TB

Alan Aircraft Services Inc., a small privately-owned company in the United States, has been serving the commercial and military aviation community since 2002 with a combined 47 years experience. Offering many aviation services such as buying, selling, aircraft management, along with the parts and ground support required to keep aircraft flying. It is a specialized industry requiring experience and knowledge to be legal, safe, and cost effective.

Alan Aircraft Services has a long history of supporting U.S. Government contractors on projects such as the MC130-W modifications including such programs as CLR3 and Dragon Spear. We feel it is a privilege to be supporting the U.S. Military with high quality UBS products.

Please reach out and set up a meeting with anyone of the UBS team as they will update you on the latest solutions and technology UBS customers enjoy.
