

Unique Broadband Systems Ltd. (UBS) Secures \$1.4M Satcom Amplifier contract.

UBS is a Canadian multinational, privately owned and operated company that specializes in design, development, manufacturing and life cycle maintenance of complete digital communication systems for voice, video and data in the broadcast, medical and defense industries.

With its head office and 60,000 square feet of facilities located in Toronto, Canada and 11,000 sq ft in Pittsburgh, USA, Unique Broadband Systems Ltd. is well-known worldwide for its strong focus on research and development. Most importantly however, UBS is recognized globally for its uncompromising approach to producing state-of-the-art satellite military, television, radio and medical communication equipment, such as power amplifiers transmitters, receivers, modulators and an array of passive components/waveguides.

Key Satellite ground stations and components serve the Ka, Ku, X, C, S, L band frequencies.

UBS President & CEO, David Dane commented that this contract will make the 14th deliverable of several more in the pipeline and this the partnership gives way to mass continued expansion and deployments over the next four years.

Please reach out and set up a meeting with anyone of the UBS team as they will update you on the latest solutions and technology UBS customers enjoy.
