

Unique Broadband Systems Ltd. (UBS) is a Canadian multinational, privately owned and operated company that specializes in design, development, manufacturing and life cycle maintenance of complete digital communication systems for voice, video and data in the broadcast, medical and defense industries.

With its head office and 60,000 square feet of facilities located in Toronto, Canada and 30,000 sq ft in Pittsburgh, USA, Unique Broadband Systems Ltd. is well-known worldwide for its strong focus on research and development. Most importantly however, UBS is recognized globally for its uncompromising approach to producing state-of-the-art satellite, military, television, radio and medical communication equipment, such as power amplifiers, transmitters, receivers, modulators and an array of passive components/waveguides. Key Satellite ground stations and components serve the Ka, Ku, X, C, S, L band frequencies.

UBS President & CEO, David Dane and Santo Aguanno, VP, Business Development for Scientific and Medical Applications, are proud to announce a recent contract award valued at \$475,000, for the custom design and manufacture of equipment related to X-Ray inspection of cargo.

Please reach out and set up a meeting with Mr. Aguanno for the latest UBS RF Scientific and Medical solutions and technology.
